### Important information:

All hikes mostly follow marked trails and climbs, some in alpine terrain. They do not involve any particular technical difficulties (see hike description). However, a certain level of basic fitness, stamina, surefootedness, and good physical condition are required to undertake these hikes. The use of medication must be discussed with your family doctor. Appropriate equipment, suitable clothing, and especially sturdy, ankle-high footwear are essential. Hiking poles may be beneficial. The maximum altitude reached is approximately 2.300 meters.

The hiking guide is responsible for providing directions, but not for the personal safety of the participants. Any participant who separates from the group does so at their own risk. The hiking guide cannot be held responsible for this.

I also agree that photos taken during the hikes in which I appear may be used for promotional purposes by the Tramin Tourist Board, or I expressly inform the hiking guide that I do not wish to be photographed. I hereby grant the Tramin Tourist Board my express consent to process the data I have provided for this purpose, including, but not limited to, my name, address, services used and correspondence related to them, date of birth, gender, nationality, country of birth, any reported intolerances, and other health-related data. In addition, Christmas mail will be sent at the end of the year, for which the Tramin Tourist Board may use the data I have provided.

*We ask that you register no later than two weeks before the start of the Autumn Hiking Days. The tourist association reserves the right to cancel the hiking days if fewer than six people have registered one week before the registration deadline.*
